INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/US03/10737

I. Basis of the report**1. With regard to the elements of the international application:***

- ☒ the international application as originally filed.
- ☒ the description:
pages 1-167 _____ as originally filed
pages NONE _____, filed with the demand
pages NONE _____, filed with the letter of _____.
- ☒ the claims:
pages 168-189 _____, as originally filed
pages NONE _____, as amended (together with any statement) under Article 19
pages NONE _____, filed with the demand
pages NONE _____, filed with the letter of _____.
- ☐ the drawings:
pages NONE _____, as originally filed
pages NONE _____, filed with the demand
pages NONE _____, filed with the letter of _____.
- ☐ the sequence listing part of the description:
pages NONE _____, as originally filed
pages NONE _____, filed with the demand
pages NONE _____, filed with the letter of _____.

2. With regard to the language, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language _____ which is:

- ☐ the language of a translation furnished for the purposes of international search (under Rule 23.1(b)).
- ☐ the language of publication of the international application (under Rule 48.3(b)).
- ☐ the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in printed form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. ☐ The amendments have _____ suited in the cancellation of:

- ☐ the description, pages NONE
- ☐ the claims, Nos. NONE
- ☐ the drawings, sheets/fig NONE

5. ☐ This report has been established as if (some of) the amendments had not been made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**

* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).

** Any replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.
PCT/US03/10737**V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement****1. STATEMENT**

Novelty (N)	Claims <u>5-12 and 14-28</u>	YES
	Claims <u>1-4 and 13</u>	NO
Inventive Step (IS)	Claims <u>5-12 and 14-28</u>	YES
	Claims <u>1-4 and 13</u>	NO
Industrial Applicability (IA)	Claims <u>1-28</u>	YES
	Claims <u>NONE</u>	NO

2. CITATIONS AND EXPLANATIONS

Claims 1-4, 13 lack novelty under PCT Article 33(2) as being anticipated by US 4,332,810. The compounds of Examples 1-5 and the composition thereof, are encompassed by the instant claims.

Claims 1, 2, 13 lack novelty under PCT Article 33(2) as being anticipated by BELANGER et al. The compounds 6, 8 (page 2177) and 11, 15 (page 2178), and the composition thereof, are encompassed by the instant claims.

Claims 1, 2 lack novelty under PCT Article 33(2) as being anticipated by IDDON et al. The compounds 24, 25 (page 1085) are encompassed by the instant claims.

Claims 5-12, 14-28 meet the criteria set out in PCT Article 33(2)-(3), because the prior art only teaches R1 as hydroxy or methoxy, and does not teach or fairly suggest the instant compound wherein R1 is hydrogen, amino or halogen. The prior art only teaches the use of the compound for treating pain, and does not teach the use of the inventive compound for treating a protein kinase related disorder as recited in the instant.

Claims 1-28 meet the criteria set out in PCT Article 33(4), and thus find industrial applicability because the subject matter claimed can be made or used in the pharmaceutical industry in the treatment of a protein kinase related disorder.
